Correction to: *Scientific Data* <https://doi.org/10.1038/s41597-021-00941-8>, published online 16 August 2021

In the original version of this Data Descriptor, the legend to Figure 16 incorrectly stated that the figure depicts the results of the multi-subject study for the MT protocol and that the mean MTR was computed. The legend has now been corrected to indicate that the figure depicts the results of the multi-subject study for the DWI scan and that the FA was computed. This has now been corrected in the PDF and HTML versions of the Data Descriptor.
